

CAVITY CLOSERS

Rigid insulated closer system solutions

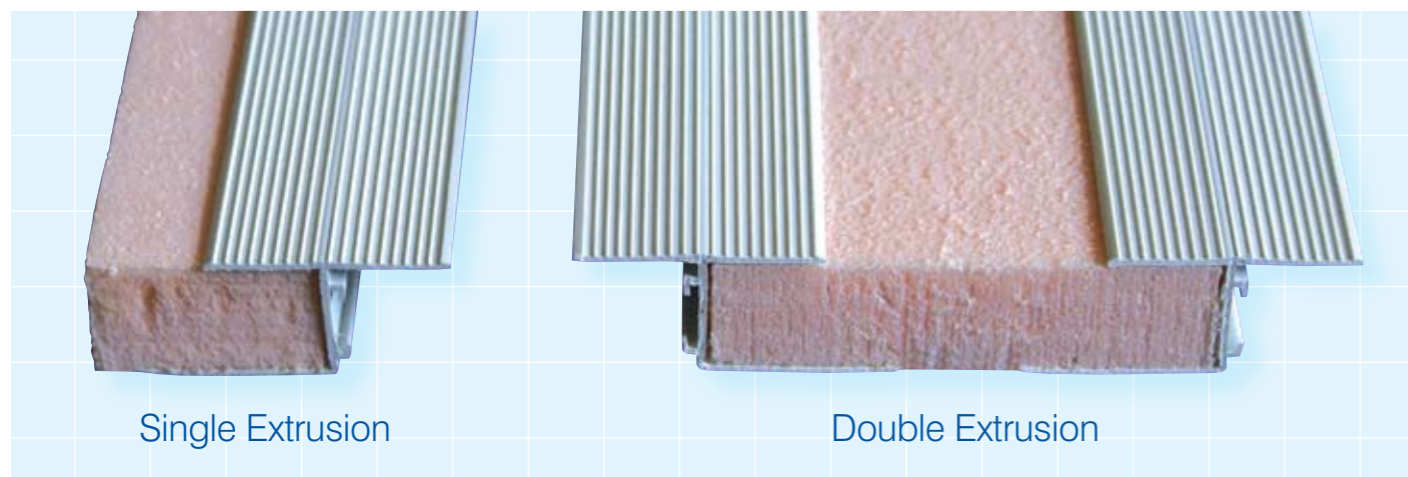

Speedline is a range of quality ancillary products for a wide range of applications

General building and insulation essentials • Metal systems for drylining and partitioning • Drywall accessories

SPEEDLINE OFFERS TWO **QUICK AND EASY TO USE** CAVITY CLOSER OPTIONS

Eliminate cold bridging • Reduce heat loss • Form an effective DPC • Prevent condensation, staining and mould growth • Prevent moisture ingress • Flanges accept plaster • Utilise recycled pvc

speedline® CAVITY CLOSER

Single Extrusion

Double Extrusion

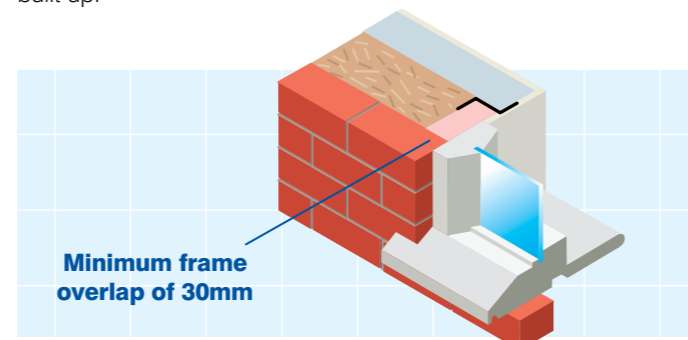

The Speedline Cavity Closer has been designed to provide an easy and effective way of closing the cavities within openings in masonry walls for windows and doors.

With BBA verified performance, the Cavity Closer works in two ways:

- The UPVC outer acts as a damp proof barrier and a substrate for the application of plaster.
- The insulated XPS core prevents thermal bridging in accordance with Part L of the Building Regulations.

Available in both single and double extrusion.

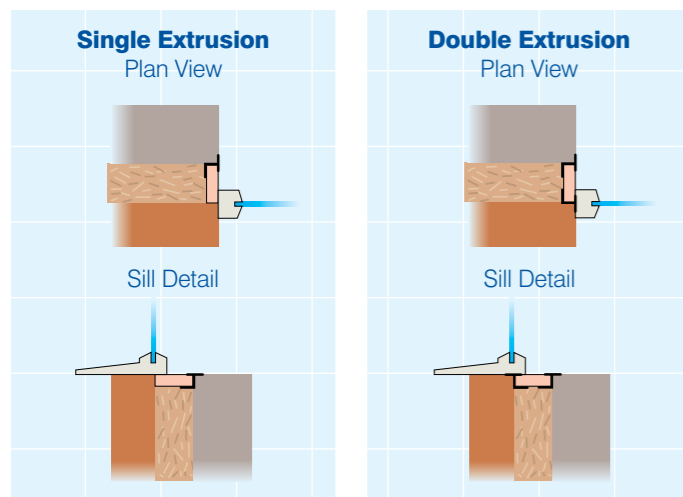

Speedline Cavity Closer flanges have holes to allow fixing to the wall or frame and brick ties to secure to brickwork as it is being built up.

- Meets the ACD requirements v1.0
- Minimum resistance path through the closer of not less than 0.45m²K/W
- Minimum frame overlap of 30mm

THE SPEEDLINE CAVITY CLOSER IS AVAILABLE IN THE FOLLOWING SIZES

	Length	Width	Pack Size
Single	2500mm	50-200mm	10
Double	2500mm	50-250mm	10

speedline® PREFORMA CLOSER

The Speedline Preforma Closer offers all the advantages of the Speedline Cavity Closer. Suitable for full or partial fill insulation, this bespoke, BBA approved product also has the added benefits of:

- Ensuring accurate window and door openings
- Eliminating the need for the construction of timber formers
- Acts as a brickwork guide
- Makes re-pointing unnecessary
- Individually marked for quick on site identification
- Increases the ease and speed of construction
- Saves time and money

THE SPEEDLINE PREFORMA CLOSER IS AVAILABLE IN THE FOLLOWING SIZES

Widths 50 - 250mm
