SIG INSULATIONS

Hillsborough Works, Langsett Road Sheffield S6 2LW
 Tel: 0114 285 6300 Fax: 0114 285 6375

SPEEDLINE

Speedline is a high quality, high performance brand of drywall products and accessories, available from SIG Insulations companies.

SIG INSULATIONS

Significantly More Know-How

SIG Insulations, the insulation division of SIG plc, is the UK's market leading specialist distributor of insulation, dry lining and related products to construction and industry, via its multi-company structure. Full company details are on the back cover of this brochure.

Nationwide Service

SIG Insulations companies are based throughout the UK. Branches carry extensive stocks of all products, plus a comprehensive choice of Speedline accessories, such as fixings, adhesives, joint compounds, tapes and mastic. Experienced staff offer a fast and efficient service while product specialists are on hand to assist with technical issues and complex specifications.

Products & Accessories

Our comprehensive product list highlights common building applications and the materials we supply. Not just all the major brand names in thermal and acoustic insulation, dry lining and fire protection, but also all the additional building products and accessories you need.

- Insulation and building products for walls, roofs, lofts and floors
- Acoustic and timber frame insulation
- Dry lining and partitioning
- Fire protection products
- Civil engineering products
- Industrial lining
- Industrial H&V
- High temperature insulation
- Fabrication, refrigeration and cold storage

Technical

Although best known for product supply, SIG Insulations teams of specialist advisers also offer support services through the whole construction process to architects, designers, building control managers and contractors, with the provision of sound, impartial technical advice on specification and application choice.

- Technical information
- COSHH
- Regulations updates
- Code for Sustainable Homes
- Part L
- Part E
- Fastrack CAD
- CPD Seminars

Sustainability

SIG Insulations companies are uniquely positioned within the supply chain to advise customers, house builders and specifiers, from an independent and impartial perspective, on what sustainability means to them.

Prices charged are those ruling at date of despatch and whilst information contained in this Price List is believed to be accurate at the time of printing, you are advised to contact your local branch for up-to-date information.

The company reserves the right to alter or amend the products without notice as our policy is one of constant improvement. All products are sold subject to our standard conditions of sale which are available on request.

Health and Safety at Work Act 1974/Section 3. Consumer Protection Act 1987. COSHH Data Sheets are provided by request to the supplying branch.

SPEEDLINE BEADS

**NEW
UPVC BEADS**
FOR INTERNAL AND
EXTERNAL USE

PLASTER BEADS FOR INTERNAL USE

ANGLE BEAD

Provides a true, straight corner which protects and reinforces plaster where it is most vulnerable. One size adjusts for thickness.

PLASTER BEADS FOR THIN-COAT PLASTER

THIN-COAT ANGLE BEAD

For 3mm plaster finishes on plasterboard or any smooth background.

BEADS FOR DRY LINING

PLASTERBOARD EDGING BEAD

A reversible, dual-purpose bead which reinforces plasterboard edges by enclosing them in a protective steel section.

Speedline beads are manufactured by Expamet ensuring you receive top quality products from the established market leader

ACCESS PANELS WITH IMPROVED ACOUSTIC PERFORMANCE TO MEET THE NEW PART E BUILDING REGULATIONS. ASK YOUR LOCAL STOCKIST FOR DETAILS.

Unlock Your Access Problems

Exitile manufacture a wide range of access panels to suit all types of ceiling and wall systems, allowing easy and uncluttered entry into ceiling voids and wall cavities where services and controls need to be readily accessible for maintenance or repair.

Exitile use the latest in production techniques and are the U.K.'s largest supplier of standard and custom built access products.

Exitile's range of products include fire proof, sound proof, air-tight and insulated access panels supplied in any size, which can also be supplied with a ' Biocote' Anti-microbial powder coat finish.

Exitile have been manufacturing and supplying access panels and metal solutions for over 17 years and are pleased to be suppliers of the Speedline Range.

FERMACELL'S famous orange logo tells you you've got a highly sustainable building board – made from 100% recycled materials, with an onsite recycling service to collect site waste and reprocess offcuts.

FERMACELL also helps you create healthy, allergy-free living and working conditions. It has been shown not to promote mould growth in a Fraunhofer Institute for Building Physics study, and awarded the coveted Rosenheim Institute of Construction Biology and Ecology Certificate.

With so much pressure to be green these days, it's time to think orange.
